

## COACHES SEMINAR

The Nordics 2019, 9<sup>th</sup> February, 08:00-10:00  
Business Club, Stångebro Ishall (MR)

The society and the people have changed, we have become more digital and the change goes faster and faster, but maybe not always within Sports. However, there is a movement within the sport movement, and things are changing.

Many sporting nations have a dual goal - to win more medals at international championships and to get more people active. Sometimes these two goals seem to be at opposite ends, but with the help of research we have been able to see how they actually work together.

What kind of leadership and coaching do the athletes of the future need? How can we work in a better and more sustainable way? How can clubs and other organisations help coaches prepare for the future.

These are some of the topics of the coaches' seminar at the Nordics 2019 in Linköping, Sweden. There will be a mix of lectures, discussions and sharing of knowledge and experience.
